

# Establishment of networks – the case of

PA - why networking, how to do it, how to make it efficient & long-lasting

## AdriaPAN - the process

- Adriatic region (more than 200 PA, great PA diversity, very limited size, mostly terrestrial & coastal)
- bottom-up, started by 10 Italian PA, Cerrano charter (2016- 42/>50)
- network secretariat – coordination unit /“virtual”
- the networking (secretariat included) relies mainly on projects

Robert Turk , Institut of the Republic of Slovenia for Nature Conservation

# Establishment of networks – the case of ADRIAPAN

ADRIATIC PROTECTED AREAS NETWORK

[www.adriapan.org](http://www.adriapan.org)

PA - why networking, how to do it, how to make it efficient & long-lasting

## AdriaPAN - contents & form

- contacts & communication between Protected Areas in the Adriatic
- improving partnership effectiveness in terms of management and planning
- visibility of PA (public, strategies, planning, ...)
- AdrlonNET (Interreg programme – ADRION)

**Merci – Thank you**

# Adriatic Protected Areas, Coastal and Marine

There are more than **200** Protected Areas, within the **Adriatic Sea** and along the **Adriatic coasts** officially recognized by national and international laws.

Almost **90** of these Protected Areas have a recognized Authority created for the protected area's management.

**Merci – Thank you**
